

# RetenSpect<sup>25</sup>

**Focused on force, flexibility and retention**

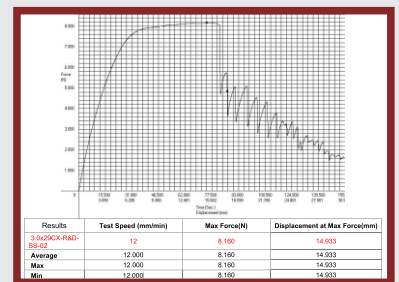

## ➔ Key Features

**U**nparallel load verification and superior stiffness and alignment

**S**ingle column tabletop system for force testing

**G**raphical representation of load, time, motion and optional pictorial data

**H**igh capacity motor for better reliability

## ➔ Specifications

- ➔ Force measurement capacity: 25 N (other options available)
- ➔ Force measurement resolution: 0.01 N
- ➔ Z Axis traveling capacity: 180 mm
- ➔ Z Axis traveling resolution: 1μ
